

Lean Six Sigma Green Belt®

The Certified Lean Six Sigma Green Belt is a professional who can explain Six Sigma philosophies and principles, including supporting systems and tools. A Green Belt should demonstrate team leadership, understand team dynamics, and assign team member roles and responsibilities. Green Belts have a thorough understanding of all aspects of the DMAIC model in accordance with Six Sigma principles. They have basic knowledge of lean enterprise concepts, are able to identify non value-added elements and activities, and are able to use advanced analytical tools.
