

ArchiMate® Certified (Level 1 and 2) 2

Develop Architecture Artifacts Using ArchiMate 2.1

Build a solid understanding of ArchiMate 2.1 and learn how to practically apply it when creating enterprise architecture models with our accredited online training course.

Delivery: e-Learning

Certificate: Examination (included)

Accredited By: The Open Group

Mock Exam: Included in Course

Duration: 15 hours, self-paced

Language: English

Course Overview

This course will teach you about the ArchiMate modeling language and how to practically apply it when creating enterprise architecture models.

Upon completion of this course, you will have gained a thorough knowledge of the terminology, structure and concepts needed to pass the ArchiMate Certification examination. You will also learn all the practical skills needed when modeling ArchiMate.

Who Should Take This Course?

This course is ideal for individuals or teams who wish to build a solid understanding of ArchiMate and develop architecture artifacts using ArchiMate.

Accreditation

This course is accredited by The Open Group and meets all of the learning requirements required for ArchiMate certification.

Examination

Certification in ArchiMate requires you to pass both a Foundation exam and a Certified exam.

The Foundation exam is a closed book, multiple choice exam consisting of 40 questions. There is a time limit of 60 minutes to complete the exam (although it is extended to 90 minutes where English is a second language). The pass-rate for the exam is 60%.

After passing the Foundation exam you can then move onto the Certified exam, which is an open book, multiple choice exam consisting of eight questions. There is a time limit of 90 minutes and a PDF copy of the ArchiMate 2.1 Specification will be provided. The pass-rate for the exam is 70%.

A number of practical exercises are interspersed throughout the course, which are aimed at testing your understanding and practical application of the training you have just received. At the end of the course, a number of mock-exam case study scenarios are provided which have been designed to simulate the actual exam.

After passing both exams you will become a certified ArchiMate Practitioner!
