The content of, and the certification requirements for, ISO18404:2015 for both individual practitioners and organisations, and how to prepare your organization for certification for Lean and/or Six Sigma under the ISO18404 international standard.

## COURSE OVERVIEW

The 'Preparing Your Organisation for ISO18404 Lean or Six Sigma Certification' course is designed to assist you to understand the content of, and the certification requirements for, ISO18404:2015 for both individual practitioners and organisations, and to help you prepare your organization for certification for Lean and/or Six Sigma under the standard.

The main objectives of the course are to introduce the reasons that the ISO18404 standard was developed, what it provides why it is worth certifying an organization, and how to do that. It aims to provide practical advice on preparation for certification, including the steps to be taken and what to do if things go wrong.

## WHO SHOULD TAKE THIS COURSE?

Anyone or any organization involved in, or considering implementing, Lean and/or Six Sigma, whether or not they are committed to organizational certification against ISO18404:2015. It is particularly relevant to managers in all types of organisations including manufacturing, service, public sector and voluntary organisations. It is also of particular interest to manufacturing and other engineers. It is a good preparation for implementation and management of a Lean and/or Six Sigma programme.
